

Project details:

Title: Pocket Tools

**Ref. no. 2016-1-IT02-KA219-024220\_6**

Key Action 2 / Cooperation for innovation and the exchange of good practices

Action: Strategic partnership for schools only

## **IES César Manrique report**

DISSEMINATION activities

September 2016-September 2017

**We presented the Project and the work done so far to the different groups that make the IES César Manrique School Community on a regular basis.**

As soon as we knew we were part of the Project, the headmistress informed the teacher staff during the first general assembly and the first school council in October.

From that moment on, the coordinator the Faculty and the School Council have been informed about the work done and the work to do every three months by the coordinator and the headmistress by mean of Prezzi and PowerPoint. We keep record of that in the minutes of the meetings.

With regards to the students, the coordinator of the Project together with the Math and the Spanish teachers involved in our school met the three groups of students in year 9 who are participating in the Project to introduce them to it in the month of November, after our kick off meeting in Viterbo. We ued a PowerPoint presentation in the Assembly Hall. Once work started, the teachers involved have kept students updated during regular lessons.

The Project has also been presented

Besides, and in order to reach as many people as possible, we have used different means to disseminate the meetings, the agreements and the work done.

**IES César Manrique School Erasmus+ Corner** at the entrance of the building. We keep it updated so teachers, students and families are always informed.

These online tools have proved to be a good tool to reach the member of our school community, other schools' and Lanzarotean society in general:

**Lanzarote Teachers' Centre** . This is the place where teaching events and training are held. We have taken part in two events in which Erasmus+ projects on the island were shown to the Lanzarotean teachers of any subject in primary or secondary schools.

- On Thursday 9th February , CEP of Lanzarote, within the **meeting organized by the Canarian Education Department** through its Erasmus + Office: Canarias In Europe, Europe In Canarias. Changing Lives, Opening Minds a session to highlight Erasmus projects on the island. In this session, colleagues and partners with projects that are taking place in Lanzarote shared with us the results, successes and difficulties, thus showing a vision of the Erasmus + programme.
